MEMORANDUM FOR BELLEVUE R/C AERO MODELERS

FROM: 55 OSS/OSAT

SUBJECT: Memorandum of Understanding (MOU) for model flight operations

1. This is a memorandum of understanding between Air Combat Command's 55th Wing, Offutt AFB and the Bellevue R/C Aero Modelers (AMA Club #4205) outlining model aircraft flight operation IAW Public Law 112-95; Section 336; Paragraph (5): when Model Aircraft are flown within 5 miles of an airport, the operator of the aircraft provides the airport operator and the airport air traffic control tower (when an air traffic facility is located at the airport) with prior notice of the operation (model aircraft operators flying from a permanent location within 5 miles of an airport should establish a mutually-agreed upon operating procedure with the airport operator and the airport air traffic control tower (when an air traffic facility is located at the airport)).
2. Bellevue R/C Aero Modelers perform flight operations at Bellevue R/C Field located at Hayworth Park, Bellevue, Nebraska. The club was established in 2003 and is sponsored and supported by the Bellevue City Parks Service.
3. The 55th Wing is aware of the Bellevue R/C Aero Modelers operating model aircraft within five (5) miles of Offutt AFB and that model aircraft operations at Hayworth Park do not pose a danger to Offutt AFB flight operations. Members of the Bellevue R/C Aero Modelers are not required to contact Offutt Air Traffic Control (ATC) when conducting flight operation over Hayworth Park. Bellevue R/C Aero Modelers will cease flight operations when Offutt AFB's normal flight patterns are changed to accommodate air show flight demonstrations. Upon request, Bellevue R/C Aero Modelers will cease flight operations for set periods of time to support safe flight operations in and out of Offutt AFB.
4. Members of the Bellevue R/C Aero Modelers are aware they are operating model aircraft within 5 miles of Offutt AFB. They are not required to contact Offutt ATC to announce flight operation over Hayworth Park. The club will conduct safe flight operation in a manner not to interfere with Offutt AFB flight operations. Over flight of Offutt AFB or flying near aircraft approaching or departing Offutt AFB is strictly prohibited. Bellevue R/C Aero Modelers will contact Offutt ATC if there is a possibility of models over flying Offutt AFB at (402) 232-0549. Bellevue R/C Aero Modelers will cease flight operations when Offutt AFB's normal flight patterns are changed to accommodate air show flight demonstrations, and will support requests from Offutt AFB to cease flight operations for set periods of time to support safe flight operations in and out of Offutt AFB. Bellevue R/C Aero Modelers will maintain U.S. Academy of Model Aeronautics Charter membership with insurance.
